**COMMENTS: - (Include requests for further action, rule clarifications, schedule changes, safety matters)**

Registration experienced a failure in Motorsportreg that put all 3 CASC computers out of commission Friday afternoon/evening; resolved Saturday

Pit officials noticed to not be enforcing equipment/dressing requirements for pit officials on Saturday - not wearing high visible vests or coveralls - Sunday 2 compliant and 1 sent to obtain vest

Registration was not given a radio Saturday morning - caused communications difficulties

Lack of paddock marshal delayed ability of control to contact drivers to attend at control/stewards

Weigh scales were not available Saturday, ostensibly due to rain/wet conditions

Sunday "closed wheel practice" included a single vintage sedan (mini) - stewards seeking clarification for safety requirements to apply to such session - clearer definition may have assisted in determining if that car should have been included in the session with GT cars
