These regulations are intended to assist in the conduct of Competitions and to further general safety. They are a guide and in no way guarantee against injury or death to participants, spectators or others. No express or implied warranties of safety or fitness for a particular purpose shall be intended or result from publication or compliance with these regulations. By applying for a competition licence and/or by entering a competition event, all participants are deemed to have understood and accepted these terms, including that motorsport is inherently dangerous and it is each participant's obligation to meet and maintain compliance with all regulations to reduce the risk of death or injury to self or others, recognizing that such risk is inherent to the sport and cannot be completely eliminated.

 - v. GT5: 2m, 27.000s and slower

The Race Director may re-classify a car at his/her discretion. That decision can be appealed at Race Committee.

3.2 NEW ENTRIES

- 3.2.1 Cars not previously raced in Ontario Region may register as unknown class (GT-?) but must be officially classed before their first race session. It is the responsibility of the entrant to set their class after publication of the practice/qualifying times. The updated car classification is to be given to registration using the Class Declaration form.

3.3 CLASS DECLARATION

- 3.3.1 Competitors shall be responsible for the choice of class and proper listing of class on the event entry form. Correct class designation shall be shown on the car at all times.

3.4 BREAK-OUTS

- 3.4.1 A Competitor who, during qualifying, achieves a lap time which is officially timed as less than the break-out time for the class entered, shall be listed in the results as "B/O" and shall be placed behind the slowest qualified car in the class.
- 3.4.2 A competitor who, during a race, achieves a lap time which is officially timed as less than the break-out time for the class entered, shall lose one (1) lap for each break-out.
- 3.4.3 Official lap times are considered to be any lap times recorded by electronic means and or manual system input by the official event timer. Any lap not timed will not be counted in the competition results.

4 RECLASSIFICATION

- 4.1.1 A competitor who, during any qualifying or race session, achieves a lap time which is officially timed as more than two (2) seconds less than the break-out time for the class entered OR who breaks out more than three (3) times in a single session, shall be listed in the results as "B/O" and shall be reclassified to the next faster class for the rest of the year, effective for the next session for the car/driver.
- 4.1.2 Competitors may change the class designation, provided application in writing to the Clerk of the Course is made at least one hour prior to a qualifying session or race and only if they have not been reclassified due to breakouts as outlined above.
- 4.1.3 In either event, the class designation on the car shall also be changed to conform to the new registered class.
- 4.1.4 When class designation is changed during an event as outlined in 4.1.1 above, the competitor shall be allowed to retain their grid position and shall count points already gained towards the championship. Competitors who voluntarily request an upward reclassification, as outlined in 4.1.2 above, shall be allowed to retain their grid position and shall count points already gained toward the overall PIRELLI Tire GT championship.
- 4.1.5 CASC-OR will publish a class change form, which shall be used for this purpose.

5 NEW TRACKS AND TRACK CONFIGURATIONS

For the first event at a track, or track configuration, for which break-out times have not been established, there shall be no break-out during qualifying. Break-out times for each class shall be established as two seconds less than the average of the best qualifying lap times achieved by the three fastest cars entered for the class, rounded down to the nearest even second. The CASC-OR Race Director may set or alter these break-out times.
