## **Race Division Report: July 2022**

June 16-19 Varac Vintage Festival at CTMP.

Over 200 entrants registered for the yearly event. Numbers were a bit smaller than usual for various reasons this year, maybe fuel prices ...

Very well received as always with great feedback from everyone.

Racing was competitive and close without major incident. They also had street lapping and car show and shines, which were also well supported.

Sessions ran on time and a huge thanks to all the support and volunteers who make it possible.

Up next is the BARC Canadian Touring Trophy Races weekend which is July 23,24 with the test day on the Friday.

Featuring the Toyo Tires F1600 Series, The Pirelli GT Sprints 1-5, F/Libre, F/Classic, F4, F1200 grid,, Vintage/ Historic, and to top it off, the FEL Radical / ERCC Series.

Should be a great weekend.

In August we have the one day Varac Event with the help of Barc, at Shannonville. This one day event has become staple for the Varac grids and is usually a ton of fun.

That date is Aug. 06 which is a Saturday.

Two weeks after that is the Calabogie Regional Event, details to follow.

Don't miss that one.

Point standings are all up on the CASC website so check it out.

Ray Arlauskas
