**COMMENTS: - e.g. schedule changes approved, suggested rule clarifications, and safety concerns.**

The first event of the season ran well, coming together quickly after the decision to go ahead made earlier in the week.

Saturday was frigid with windchill around -20, Sunday was warmer and sunny.

The both days started on time and ran well. The number of entries was down.

All Street Stud entries were combined into a single grid. This meant the schedule moved along quickly.

The new light system worked well as built. However, it uses a timer for how long to flash yellow. A future improvement would be to provide some control to enable/disable, as some classes might take more than 1 minute per lap.  
The track was run counter-clockwise on Saturday, and clockwise on Sunday.  
Saturday evening, the volunteers had dinner at a local restaurant.
