### Event Assessment/Comments

The weekend was sunny and warm. The grids were large. The weekend was well organized, good atmosphere.

There were 3 unrelated rollovers on the weekend. One roll over on the pit straight had unidentified crew jumping the wall onto the hot track. This is unacceptable, no one should ever enter the circuit for any reason without permission from Race Control. This could result in a very severe penalty had the crew members been identified. The Chief Scrutineer is investigating a possible failure of a fuel system component involved in one of the rollovers.

The recovery team had difficulties with some cars not having accessible tow hooks. Competitors are reminded that tow hooks, front and rear, are mandatory (App N, Section 27).

On Sunday afternoon, due to the delays from on-track issues and cleanup, the races were shortened to 18 minutes.

A recommendation for next year is to have a pre-weekend meeting with the Chief Steward, VARAC Conduct Committee and the Clerk of the Course to work out responsibilities and open communications. Open communications of on-track issues between the stakeholders will improve the competitor experience.

The scrutineering team processed 113 Annual Inspections.
