

BULLETIN: 2023-RR-04

DATE: August 30, 2023

FROM: Ray Arlauskas, Race Director

TO: All License Holders and Race Officials

SUBJECT: Updates Race Regs

It has come to the attention of CASC-OR that unlabeled safety harnesses are being sold in Ontario through certain chain stores. It is always the responsibility of the driver to ensure that they are safe through the appropriate purchase and installation of their restraint systems.

1) Race Regulations, Appendix I – Driver Safety Equipment

Insert new Section 6.1.2 as follows:

6.1.2 All restraint equipment must bear the name of the manufacturer, in addition to the standards label (SFI or FIA hologram). Any equipment without a clear manufacturer cannot be compared against the above list, and thus cannot be accepted or approved.
